RCAF 418 (City of Edmonton) Squadron began its long and proud history when it was formed in Debden, England on 15 November 1941.

Equipped with the Boston and Mosquito aircraft, its role was to attack enemy airfields, rail yards, troop concentrations and munitions factories.

As one of the most highly decorated Squadrons of WWII, they compiled an impressive record of 105 enemy aircraft destroyed in the air, 73 on the ground, and 40 more damaged. Additionally, they shot down 83 Buzz Bombs, destroyed and/or damaged 28 trains, 511 trucks and 8 factories. Night attacks on barges, boats, barrack blocks and railway stations caused immense havoc.

Post war, the Squadron flew the Harvard, Expeditor, B-25 Mitchell Bomber, T-33, Single Otter, Twin Otter, and the C-130 Hercules in a variety of roles. In August 1994 the Squadron was disbanded due to budget cutbacks.

418 Squadron Association was formed to:

- PRESERVE, PROTECT AND DISPLAY memorabilia gathered over 53 years of continuous operations.

Through our displays here, our social functions, and ongoing ties with the military, we are keeping alive the spirit of the men and women of the RCAF who sacrificed so much in the performance of their duties.

For \$15.00 you can become a member. You will:

- receive a membership card good for one year of free admission to this Museum,
- be included in all social functions,
- be placed on our computerized membership list, and
- become identified with a concerned group of people keeping HISTORY alive.
